

Dotta Canyon Project

DESCRIPTION:

Eight erosion control rock drop dam structures were built on Dotta Creek downstream from Dotta Dam, which flows into Indian Creek by way of Red Clover Creek. The land owner built the project with design help from the Soil Conservation Service (now Natural Resources Conservation Service) and Plumas Corporation. Loyalton High School students seeded, fertilized and planted willows at the project site.

SPONSORS:

FEDERAL: Agricultural Stabilization and Conservation Services; STATE: California Department of Forestry and Fire Protection; PRIVATE: Pacific Gas & Electric Company, Landowner

PROJECT RESULTS:

Check dams failed
