

## Little Stony Creek Project

**DESCRIPTION:**

Little Stony Creek is a tributary to Last Chance Creek. This project was one of a suite of USFS Forest Health Pilot Projects (FHP) adopted by the Feather River CRM. It consisted of an 800-foot sequence of step-pool headcut treatments.

**SPONSORS:**

FEDERAL: U.S. Forest Service Forest Health Program

**PROJECT RESULTS:**

The treatments were partially damaged in the January 1997 flood.
