

## Meadowview Rowland Project

**DESCRIPTION:**

This project is located on the private lands of John and Corrine Matley and public lands managed by the U.S. Forest Service Plumas National Forest. At the request of the private landowner Plumas Corporation staff began the development of a proposal to restore 252 acres of xeric meadow and 4.4 miles of downcut channel. The project was in the planning stages between 2009-2011 in coordination with Plumas National Forest Beckwourth Ranger District. Funding to complete the planning, environmental analysis, and permitting processes was depleted in 2011. Efforts to seek additional funding and continue to move the project forward has been delayed indefinitely by Plumas County.

**SPONSORS:**
